

Field Services

Stainless Steel Tanks & Related Equipment

W.M. Sprinkman utilizes a complete team of field service specialists, engineers and draftsmen to inspect, modify or repair your stainless steel tanks. Our crews are available on a scheduled basis or to handle any emergencies.

We provide a written report detailing the findings of the inspection, our recommendations and, if applicable, an estimate for any needed repairs.

Tank Inspections

Tank Exterior:

- Shell
- Outlets and nozzles
- Ladders, legs and bracing
- Manways
- Sprayball
- Motor Mounts

Tank Interior:

- Shell
- Agitator
- Sprayballs
- Overall cleanliness

Dye-check the shell and heads with a penetrant that reveals pits & cracks under a UV light

Heat transfer evaluations and calculations
