TRUST YOUR TANK TO THE EXPERTS.

Trust W.M. Sprinkman to deliver the sanitary stainless steel tanks you – and your customers – demand.

From 3A design to pharmaceutical, 5-gallon single shell to 15,000-gallon insulated, ASME or atmospheric-rated, temporary or permanent, Sprinkman tanks deliver the heating, cooling, mixing, processing, cleaning and storage that keep your process performing. Select the stainless steel grade and finish that fit your needs. You can be sure that Sprinkman's experienced team will create a tank that will work from the moment you connect the last line.

Sprinkman Tank Manufacturing Capabilities

HEAT TRANSFER SURFACES

- Multiple zone configurations
- Welded dimple heat transfer surfaces
- Steam rating: 15 PSI @ 250°F
- Cooling rating: 50 PSI @ 100°F
- Optional ASME ratings

AGITATION

- All-welded design
- CIP (Clean In Place) cleanable
- Bottom and/or side sweeps
- Scraped surface with removable nylon blades
- Blending turbines
- Nylon split-seal design
- Gearmotor: wash-down, VFD-ready, stainless steel motor (optional)
- Custom designs available, including 3A, PMO and ASME

STANDARD OPTIONS

- Adjustable ball feet
- Load cell plates
- Telescoping legs (for field welding)
- Safety ladders and platforms
- Insulated
- No-foam inlets
- CIP sprayballs (removable/non-removable)
- Vortex breakers
- Anti-siphon device
- Thermowell (recording or indication wells)
- Level sensor shell
- Gasketed/non-gasketed manways
- Lift-off covers
- Sanitary removable vents

FINISHING OPTIONS

Material Type

- 304 or 316

Surface Finish

- 2B mill finish or #4

Weld Finish

- Ground & polished
(dairy finish, pharmaceutical,
32 RA or better)
- Weld color removed
- Stripe buffed
- Bead blasted

2B mill finish

#4 finish

ABOUT SPRINKMAN

Founded in 1929 and family-owned, W.M. Sprinkman provides system solutions for the sanitary process industry. With two facilities and a team of dedicated employees, we are ready to assist dairy, food and beverage processors in addressing needs across their operations – from system design, engineering and installation to stainless steel tank manufacturing and service.

To learn for yourself how making you better is what Sprinkman does best, contact us at 800-816-1610 or sales@sprinkman.com.
